

Initial Accessibility Checklist

The list below is not exhaustive, but rather a guide to ensure that we can support engagement as widely as possible. Please add to this as necessary.

This is to be used during initial conversations with potential panel members, however ongoing support forms are available for specific pieces of work – see Individual Support & Safety Plan.

Logistics

- Do you require IT equipment and/or internet access? Do you share equipment with anyone else in the household?
- What are your contact preferences?
- When suits best for availability (some meetings may require privacy i.e. no children in room)
- Do you have any learning needs (diagnosed or otherwise) or require additional support with numeracy, literacy etc?
- Is a translator/interpreter required?
- Payment – will this impact any monies coming into your home?

Domestic Abuse

Are you currently being supported for you experience of domestic abuse?

Yes

Will this continue throughout the duration of the group? If you plan to let your supporter know, do you require any input with this?

No

If you felt during the group that you needed more formalised support, where would you go? We can support referrals etc.

Is there anything that you may find difficult to discuss? If yes, we can endeavour to manage this sensitively and appropriately.

Is it safe for you to take part in the group and do you have any concerns regarding safety?
